Ofek Nahary

053-5280662 | onahary90@gmail.com | Ora, Israel

Summary

Fourth-year Electrical Engineering and Computer Science student at the Hebrew University of Jerusalem. Strong background in software, algorithms, operating systems, computer architecture, and signal processing, with experience in C/C++, Python, Java, and MATLAB. Leadership experience as an IDF officer and shift manager at the Bank of Israel. Seeking a software or engineering internship.

Projects

Machine Learning & Data Analysis (Python)• Implemented and evaluated machine learning models including SVM, KNN, Decision Trees, and polynomial regression. • Performed data preprocessing, model training, and performance analysis on real-world datasets.

Radar Signal Detection & Localization (MATLAB)

- Implemented matched-filter and MAP detectors for signal detection in noisy channels.
- Estimated signal delays and target positions using correlation-based ranging and triangulation.
- Applied advanced signal processing and statistical detection theory techniques.

Experience

Bank Of Isreal | Jerusalem, Israel
Shift Manager - Security Department | 05/2023 - Present

- Led team operations in high-pressure, real-time environments.
- Trained and mentored new personnel.
- Made rapid operational decisions while ensuring safety and continuity.
- Received Performance Excellence Awards in 2024 and 2025.

Skills

Programming: Python, C, C++, Java
Tools: MATLAB, Linux, Git, AI-Assisted Development (ChatGPT, Claude, Gemini)
Relevant Coursework: Data Structures, Algorithms, OOP, Operating Systems, Computer Architecture, Signal Processing
Languages: Hebrew (Native), English (Fluent)

Education

Hebrew University of Jerusalem | Jerusalem, Israel
Electrical Engineering and Computer Science | 10/2027

- Computer Architecture – 98/100
- Advanced Signal Processing - 99/100
- Introduction to Signal Processing – 95/100
- Data Structures - 95/100
- GPA - 85

Military Service

Infantry Officer (Lieutenant, Captain – Reserves) – Golani Brigade, IDF (Israel Defense Forces) | March 2018 - April 2022.

- Led soldiers in operational and training missions.
- Trained and mentored recruits to maintain operational readiness.
- Developed leadership and decision-making skills in demanding environments.
- Awarded a Certificate of Excellence for operational service in Gaza.
